

**UNITED STATES DISTRICT COURT  
FOR THE DISTRICT OF MASSACHUSETTS**

FILED  
CLERKS OFFICE  
2004 MAY 14 P 2:56  
CIVIL ACTION NUMBER:  
1:04-CV-1019

AZUBUKO -  
Plaintiff

vs.

BOARD OF OVERSEERS OF THE SUPREME  
JUDICIAL CIRCUIT – MASSACHUSETTS -  
Defendant

04-CV-10192 WGY

**SUSPENDED NOTICE OF APPEAL**

By and large, the Plaintiff's intention to appeal the case was a mere formality. The case deserved commencement of proceedings, so that there would be an end to the recurrent Hussienistic<sup>1</sup> approaches to administration of justice. The manners, the case had been handled was diametrically *unconstitutional*, *malicious* and *preposterous*. The notice of appeal followed Judge Young's denial of the Plaintiff's motion for him to recuse or withdraw from the case, central to establish or proverbial historical animosity or conflict of interest, he had towards the Plaintiff: it culminated into him denying the Plaintiff direct access to the Court. What a *Bantu*<sup>2</sup> approach to administration of justice! What caused him to think that he would be the best judge for the case defied logic! He had no jurisdiction over the case and enjoyed no judicial immunity.

The Court's response to the motion was dated April 15<sup>th</sup>, 2004, postmarked April 16<sup>th</sup> and the Plaintiff received it on April 17<sup>th</sup>, 2004. The Court's warning that "CASE CLOSED ON 03/31/2004" never meant statute of limitations barring. The Plaintiff made a motion, which necessitated response from the Court. Therefore, the so-called "closed date" was immaterial and the case was timeously appealed.
